- Version Control : GitHub, GitLab
- Methodologies : Agile / Scrum
- Tools : VSCode, WebStorm, IntelliJ IDEA, Eclipse, Docker Desktop, GitHub Desktop
- Operating Systems : Linux, Windows
- Soft Skills : Teamwork, Effective Communication, Autonomy, Adaptability, Time Management

ACADEMIC EXPERIENCE

Full Stack Developer – Final Year Internship January 2025 – June 2025
MOMSOFT Manouba, Tunisia

Digitalisation of maintenance processes at MOMSOFT through the development of an Industry 4.0 dashboard:

- Development of a Full Stack module with **Spring Boot** (Back-end) and **Angular** (Front-end)
- UML modelling of the architecture, design and development of an Industry 4.0 maintenance dashboard
- Clear and interactive visualisation of **KPIs** (MTTR, MTBF, availability, ...)
- Containerisation of the application with **Docker** to improve portability and environment stability
- Setup of an automated **CI/CD** pipeline with **Jenkins** and **GitLab** to accelerate and secure deployments
- Work in **Agile (Scrum)** methodology with task and sprint tracking

Keywords: Spring Boot, Angular, Docker, Jenkins, GitLab, MVC Architecture, Java, REST API, CI/CD, Automation

Full Stack Developer – Final Year Internship February 2023 – May 2023
FACULTY OF SCIENCES OF GAFSA Gafsa, Tunisia

Development of a cross-platform educational mobile application aimed at improving collaboration between students and teachers:

- Development of a cross-platform educational mobile application
- Integration of interactive features such as course sharing, quizzes, messaging and event management
- Design of a modular architecture with **Flutter** and **Firebase**
- Integration of secure authentication, real-time management (**Firestore**) and push notifications

Keywords: Flutter, Dart, Firebase, Agile/Scrum, Digital Education, GitHub

PERSONAL & ACADEMIC PROJECTS

Full Stack Developer May 2026 – June 2026
PERSONAL PROJECT Sfax, Tunisia

Development of a real-time instant messaging application (**Hkeya**) with advanced user and media management:

- Full Stack architecture with **Node.js/Express** (Back-end) and **React.js** (Front-end), **MongoDB Atlas** database
- Real-time communication via **Socket.io** and integration of the **Stream (getstream.io)** API for advanced channel management
- Media management (avatars, files) with **Cloudinary** and transactional email delivery via **Resend**
- Secure user authentication, dynamic chat rooms and reactive interface in **JavaScript/CSS**

Keywords: Node.js, React.js, Socket.io, MongoDB Atlas, Cloudinary, Stream API, Resend, REST API, GitHub

Full Stack Developer January 2024 – March 2024
HIGHER INSTITUTE OF TECHNOLOGICAL STUDIES OF SFAX Sfax, Tunisia

Development of a library management application to optimise the management of books, authors, publishers and sales:

- Design and development of an application using **Symfony**, with a secured back-office via **EasyAdmin**.
- Clean and ergonomic interface based on **PHP**, **MySQL** and **Bootstrap**, ensuring efficient data management.

Keywords: Symfony, EasyAdmin, PHP, MySQL, Bootstrap, CRUD, Security, MVC Architecture

EDUCATION

Professional Master’s in Information Systems Development and Networks September 2023 – June 2025
Higher Institute of Technological Studies (ISET Sfax) Sfax, Tunisia

National Bachelor’s Degree in Computer Science: Software Engineering September 2020 – June 2023
Faculty of Sciences Gafsa, Tunisia
